

SATISFACTION SURVEY 2007

Comments : Reactivity and service really convincing. (French CRO, VP Medical, Scientific and Quality Affairs)

Comments: Quality of the work and delivery time really satisfactory. State of the art and quality technical and technological offering. (Belgian university, Research Director)

Comments: We have been extremely impressed by the personnel, laboratories and quality control exercised by DNAVision. DNAVision accreditation status was a key factor in outsourcing our project to DNAVision. The quality of gene expression data is of a very high standard and we are pleased with the service DNAVision provided. We would certainly consider using DNAVision in future projects. (UK Pharmaceutical company, Research Director)
